Advancing the Art and Science of Fire Protection Engineering

October Meeting Notice Sony Studios Walkthrough

Come and join us as we take a tour of Sony Studios in Culver City. During this exciting field trip we will be looking at various fire protection features provided for the studios. Our tour will include a description of fire protection measures that are required to be performed in order to have a safe filming environment for movies and television shows. Don't miss this exciting chance to get a behind the scenes look at one of Southern California's biggest industries. Space is limited so we are limiting sign up to members only. RSVP quickly to ensure your spot.

Who Should Attend - Fire Prevention and Building Department staff, fire protection system designers and installers, architects, consultants, engineers, and others who design, plan check and/or inspect buildings for fire life/safety.

Benefits

- Learn valuable information regarding fire protection systems
- Enjoy this exciting field trip
- Network with your peers
